

For the love of  
**Craftsmanship**

**Novelties from VAUEN**  
SPRING / SUMMER 2026

Dear pipe lovers,

**companies that are steeped in tradition** often have one or two widely known **charming rituals** that seem to endure timelessly. One of these distinguishing characteristics that sets us apart from the rest is **our quality control for our handmade pipes**.

Every week, our colleagues in the warehouse fill our **yellow sample box** with **'natural patina'** with the **'highlights of the week'** so that our experts can **carefully re-examine the finest selections**.

**The models in our new series** are always particularly exciting, as this is when **our ideas become reality** for the first time. The individual models then undergo a **rigorous test regimen**. The team identifies and discusses any opportunities for improvement or optimisation and implements them accordingly.

This year, we decided to present our **'New Products – Spring/Summer 2026'** brochure with the slogan **'For the love of craftsmanship'**.

However, we are not only defined by our traditional pipe-making craftsmanship. We are also **passionate about creating beautiful masterpieces** that bring **indulgent moments of pure delight** to many people around the world.

Browse through the brochure to discover our **special new products for Spring/Summer 2026** and allow us to give you a glimpse into **our manufacturing process as we describe a few individual work steps**.

With all our best wishes,

**Martin Ramsauer**  
Managing Director

This abbreviation identifies pipes with a particularly attractive grain or an elaborate manufacturing.

The unique design of our **2026 pipe of the year** was created by a **very talented young employee** in our manufactory. The **vibrant, artistically designed** lines create impressive accents in a seemingly playful manner.

This astonishing model truly takes our slogan **'Handmade in Germany'** to a new level. The 2026 annual pipe is all about **passionate craftsmanship**, with many hard-working, nimble hands involved in its creation.

As a traditional distinguishing feature of our limited-edition annual pipes, the **'crossed pipes' in sterling silver** are individually **bent by hand** and **carefully inserted** into the mouthpiece with tweezers. Once again, there are several attractive surface finishes to choose from: **a warm brown tone in a smooth finish**, an elegant **British green** or a piano lacquer-like black, as well as several versions with **different sandblasted finishes** that really bring out the wood's natural grain.

This earns the Pipe of the Year 2026 our **'superior quality' rating** and highlights more than ever how passion, ingenuity and dedication can turn wood into exquisite masterpieces.

**exclusive, limited and individually numbered.**

2026**

WHITE DOT  
QUALITY

Please take a little extra time when you are inspecting our new GULLIVER – you will not regret it! First, focus your attention on the **beautifully designed wooden ring**. The truly unique design of our refined new model is the result of a long journey involving many small, **intricate steps of handcrafting**.

You will immediately notice the particularly captivating, **exquisite inlay work on this ring**. The story behind its creation is no less exciting: **individual segments** are **carefully selected** from **various precious woods**, joined together, **turned and shaped by hand**. Only when the ring has completed its **'artistic transformation'** is it attached to the GULLIVER's shank.

We offer our GULLIVER with a smooth surface and **six different bowl shapes**, each featuring a **crafty, plug-like mouthpiece**.

**The GULLIVER white dot series, a masterpiece and statement of genuine, traditional craftsmanship**

**LIME COLORED** is this year's 'summer fairy tale' and a tribute to our fan favourite **LIME**. The foundation is once again based on **high-quality, durable oak wood** combined with our proprietary silicate-based '**VAUEN Lining**' insert on the inside, which guarantees a pleasant smoking experience.

The visual enhancement of the **natural, attractive grain of the oak wood** is a true highlight of this series. A **lime paste, carefully applied by hand, accentuates the deeper grain elements** and gives it a more vibrant appearance. Any surface residue is then removed again, leaving behind a unique look and feel.

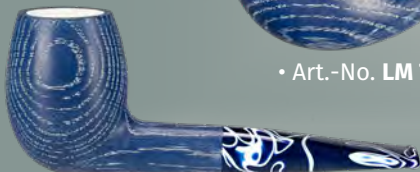

The **fresh colours of our LIME COLORED white dot series** herald the arrival of summer 2026, making it the **perfect companion** for the upcoming **outdoor season**.

**LIME COLORED. For everyone who wants to live a colourful life – easy-going and modern but with a hint of tradition.**

OAK WITH SPRING FEVER

# FERRO

“SILVER-PLATED” SHANK WITH ELEGANCE

• Art.-No. FR 172

• Art.-No. FR 144

• Art.-No. FR 186

We don't want to refer to the **unique feature** of our new FERRO series as an application, as it seems more appropriate to point out that it is the **'world's first pipe with a silver-plated shank'**. After all, this is the **immediate impression our FERRO creates** at first glance.

**In addition to the refined shank**, we also paid attention to the splendid colour of the bowl. In a highly complex process, **two different stains are manually applied by hand: a base stain and a top coat**. After drying, the base stain is slightly removed to **accentuate the grain**. The top coat is responsible for the amazing radiance, and our **FERRO white dot series is finished with a high-quality polish**.

Our 'silver-plated' FERRO is available in three different bowl shapes and **always exudes a shining elegance**.

**FERRO by VAUEN**– welcome to the silver status

# DENIM

ROUGH STYLE SMART CASUAL

Our new DENIM series is as casual as jeans and just as suitable for everyday use. In true stone-washed style, the bowl of the pipe is first sandblasted with great care to remove only the slightly softer areas of the wood. This creates a three-dimensional structure, leaving the harder areas of the fine burl wood intact. Overall, this increases the total surface area and ensures a cooler smoking experience.

After applying the colour, the hard areas are carefully sanded by hand until the natural wood reappears. This creates a distinctive look.

Six different bowl shapes offer the opportunity to choose your very own DENIM. Just as important as the right belt for a pair of jeans, the brown mottled mouthpiece provides the perfect finish to our DENIM.

**DENIM – A cool overall appearance, timeless and distinctive**

# BRASS

BRIAR WOOD  
REFINED WITH BRASS

Clear the ring! Our new BRASS series impressively demonstrates how handmade brass and wooden rings can be harmoniously integrated to enhance a pipe.

First, a round rod is turned from a block of briar burl. Then the wooden rings are delicately carved by hand. In the next high-precision step, the brass rings are made to measure and added to the shank with the wooden rings.

The new BRASS series comprises six different bowl shapes, which elegantly showcase the attractive ring composition with their warm brown tone.

**BRASS** – High-end materials merge to form a magnificent work of art

SHOW OFF YOUR COLOURS

# Red Ones

Since we invented the activated charcoal filter over 90 years ago, our **Dr. Perl junior** brand has enjoyed global success as the **original activated charcoal filter**.

Just in time for the **start of the outdoor season in spring 2026**, things are getting colourful at **Dr. Perl junior** as we are **consistently expanding our product range**. Dr. Perl junior is kicking off Spring/Summer 2026 with cool styles in red for the 9mm filters and blue for our 6mm variants.

Perfectly packaged for on the go, the new **RED ONES** and **BLUE ONES** come in **practical, resealable outdoor stand-up pouches**. A sophisticated appearance with a modern, sleek design – and always ready to go. Each pouch contains 50 filters.

**RED ONES & BLUE ONES – Familiar and proven quality in a colourful outfit**

We highly recommend **California Blend** as the new **VAUEN tobacco** for this spring. A special treat that combines a balanced variety of flavours with high-quality tobaccos.

Our new blend is based on a harmonious selection of tobaccos from a **wide variety of growing regions**, such as **double-fermented Black Cavendish, Burley** and several **Virginias**, ranging from golden yellow to light brown in various cut widths in a loose cut style.

**Inspired by Danish tobacco**, our new **California Blend** features an attractive aroma spectrum of **pistachio, candy orange and vanilla**. This harmonious blend creates a very pleasant aroma.

The new **VAUEN Tobacco California Blend** is available in a silver 50g vacuum tin that is practical and resealable.

**California Blend – treat yourself to a sunny delight!**

SUMMER BREEZE

## VAUEN key ring

YOUR EVERYDAY COMPANION  
WITH AN EXTRA FEATURE

It's great when everyday items **work efficiently but are also practical and high-quality**. Our new VAUEN key ring meets precisely these standards. Our **new key ring** comes in **brown leather and features a timeless design**.

At first glance, it looks amazing with its attractive metal ring, but if you look closer, you will notice that it also has a lot of **outstanding features**: in addition to its **practical quick-release clasp**, the new **VAUEN key ring** allows you to safely stow away your favourite pipe with its **functional leather loop and sturdy stitching**.

Regardless of where you use the VAUEN key ring – a café, in the workshop or on the terrace – it always looks stylish!
